

ZodiacFire CANCER

June 22 - July 22

**Who changes like a
changeable season?**

**Holds fast and lets go without
reason?**

**Who will stay to give
adhesion?**

To CANCER?

Oh little crab! Deep within your shell, hiding away for fear of revealing too much! Your sometimes hard, outer persona hides the kind and sensitive person you can be. Come out and live a little! – we're not going to mock you! You will, by now, have gathered that a large number of Cancerians hide their true feelings since they cannot bear to 'suffer the slings and arrows of outrageous torment' – to coin a certain Bard!

If left to their own devices and not cherished and nurtured, Cancerians can become very moody, hypersensitive and over-emotional. Keeping the sensitive Cancerian system in good order requires regular exercise, particularly water-based! So, I wonder just how many of us who live in this lovely area near the sea are Cancerians? Anyone for a dip in the Solway!?

In terms of domestic harmony, constant love and reassurance are essential if these people are to bloom and maintain a happy home life. Health-wise, there is a need to take special care of the digestive organs to try and prevent ulcers, heartburn and other gastric disorders.

Cancer represents the common people and global ideologies, sometimes re-ected in opposition to an established government. It has ties with a country's agriculture and produce of the land. Cities 'ruled' by Cancer include Manchester, Amsterdam and Milan. Scotland, across the Border, is also regarded as being a 'Cancerian' country.

For a truly personal and individual report, contact me at: zodiacfire@aol.com, or tel: 016973 33116 for a very special report of who you really are.

Silloth Regeneration Partnership

Silloth Priorities for the next year of regeneration.

A number of projects have been identified as key priorities for both the people of Silloth and the North Allerdale Partnership.

These projects have been drawn from the Silloth Regeneration Action Plan, which was itself drawn from the needs and wants of local people.

The priority projects have been identified as:

The Police Station Project

This deals with plans for a crèche and enhanced local training facilities. There is a possibility that the town could gain the use of the old police station for a new community facility. Groups in the town have already started to look at this project in more detail.

The Sports Hall Project

The Multi-purpose hall has long been a local priority to address the needs of local sporting groups and the needs, in particular of the local schools. The partnership has identified this as a key project

The Townscape Project

The partnership is beginning to work with Allerdale Borough Council towards a scheme to revitalise the town centre, building on the recent successful face-lift scheme. A townscape project would be on a much larger scale and focus on the whole of the town centre

The Green

As we all know, one of Silloth's prime assets is its green. A priority for the partnership has been identified as making sure that it retains that status.

Access to West Beach/bridge at the dock

Potential projects such as a town trail, improved access to West Beach and others could be implemented through this project.

The Silloth Airfield Project

At present we have consultants working up a comprehensive plan for the airfield. The next phase will be to see if we can find any ways of supporting what business activity is taking place on the airfield at present and ensuring that the site is doing all it can for the prosperity of the town.

These projects have gone forward to the North Allerdale Partnership as priorities, but it is envisaged that a range of organisations will implement them.

Silloth Organisations Joint Meeting on 25th July

Silloth groups can coordinate their efforts

At the May meeting of the Silloth Regeneration Partnership it was suggested that although Silloth is making a lot of headway towards the completion of its plans for Regeneration, there still isn't enough communication between the various groups within the town.

Particularly the questions of festivals, events and bids for grants were brought up as there have been a number of recent occasions on which one Silloth bid for funding would have delivered a lot more for the town than several small bids.

The Regeneration Partnership felt that there are also problems with the number of meetings in the town. Many of the same faces are attending up to four evening meetings every month. This is taking up a lot of volunteer time and could lead on to individuals becoming fatigued with the whole process.

The Regeneration Partnership, which is made up of representatives from the town council, business association, Silloth tourism action group and others has organised a joint meeting on 25th July 2002 in The Golf Hotel. At this meeting, groups will be able to update each

other on their plans, conduct their usual business and find ways to work together for the town.

One suggestion has been that all groups within Silloth become a single organisation which deals with a festivals programme, business interests and the various other strands of regeneration. Although there were some potential problems identified with this.

One thing is certain, we all need to pull together in Silloth to make sure we are doing all we can for the town and that we're making sure that all the time we volunteer is used in the best possible way.
